

Geocomputation/Spatial Analysis Reading List

- [1] Giuseppe Arbia and Francesca Petrarca. Effects of scale in spatial interaction models. *Journal of Geographical Systems*, 15(3):249–264, July 2013.
- [2] Michael Batty. Big data, smart cities and city planning. *Dialogues in Human Geography*, 3(3):274–279, November 2013.
- [3] Michael Batty. Data About Cities: Redefining Big, Recasting Small. Working Paper 203, UCL, London, August 2015.
- [4] Svante Berglund and Anders Karlström. Identifying local spatial association in flow data. *Journal of Geographical Systems*, 1(3):219–236, 1999.
- [5] Brian JL Berry, Daniel A. Griffith, and Michael R. Tiefelsdorf. From spatial analysis to geospatial science. *Geographical Analysis*, 40(3):229–238, 2008.
- [6] William R. Black. Network autocorrelation in transport network and flow systems. *Geographical Analysis*, 24(3):207–222, 1992.
- [7] Yongwan Chun and Daniel A. Griffith. Modeling Network Autocorrelation in Space-Time Migration Flow Data: An Eigenvector Spatial Filtering Approach. *Annals of the Association of American Geographers*, 101(3):523–536, April 2011.
- [8] Yongwan Chun, Hyun Kim, and Changjoo Kim. Modeling interregional commodity flows with incorporating network autocorrelation in spatial interaction models: An application of the US interstate commodity flows. *Computers, Environment and Urban Systems*, 36(6):583–591, November 2012.
- [9] A. S. Fotheringham, C. Brundson, and M. Charlton. *Quantitative Geography*. SAGE Publications Ltd, London, 2007.
- [10] A. Stewart Fotheringham. The problem of spatial autocorrelation and local spatial statistics. *Geographical analysis*, 41(4):398–403, 2009.
- [11] A.S. Fotheringham and D. W. S. Wong. The modifiable areal unit problem in multivariate statistical analyses. *Environment and Planning A*, 23:1025–1044, 1991.
- [12] Daniel A. Griffith. SPATIAL AUTOCORRELATION and EIGENFUNCTIONS OF THE GEOGRAPHIC WEIGHTS MATRIX ACCOMPANYING GEO-REFERENCED DATA. *Canadian Geographer / Le Géographe canadien*, 40(4):351–367, 1996.
- [13] Daniel A. Griffith. Modeling spatial autocorrelation in spatial interaction data: empirical evidence from 2002 Germany journey-to-work flows. *Journal of Geographical Systems*, 11(2):117–140, 2009.
- [14] Daniel A. Griffith and Yongwan Chun. Spatial Autocorrelation in Spatial Interactions Models: Geographic Scale and Resolution Implications for Network Resilience and Vulnerability. *Networks and Spatial Economics*, 15(2):337–365, June 2015.

- [15] Daniel A. Griffith and Jean H. P. Paelinck. An equation by any other name is still the same: on spatial econometrics and spatial statistics. *The Annals of Regional Science*, 41(1):209–227, January 2007.
- [16] Ron Johnston. Quantitative Human Geography: Are We Turning Full Circle? *Geographical Analysis*, 40(3):332–335, July 2008.
- [17] Rob Kitchin. The real-time city? Big data and smart urbanism. *GeoJournal*, 79(1):1–14, 2014.
- [18] James LeSage and R. Pace. The Biggest Myth in Spatial Econometrics. *Econometrics*, 2(4):217–249, December 2014.
- [19] James P. LeSage and Manfred M. Fischer. Spatial regression-based model specifications for exogenous and endogenous spatial interaction. *Available at SSRN 2420746*, 2014.
- [20] James P. LeSage and R. Kelley Pace. SPATIAL ECONOMETRIC MODELING OF ORIGIN-DESTINATION FLOWS*. *Journal of Regional Science*, 48(5):941–967, December 2008.
- [21] James P. LeSage and Christine Thomas-Agnan. Interpreting Spatial Econometric Origin-Destination Flow Models. *Journal of Regional Science*, 55(2):188–208, March 2015.
- [22] Yu Liu, Daoqin Tong, and Xi Liu. Measuring Spatial Autocorrelation of Vectors: Measuring Spatial Autocorrelation of Vectors. *Geographical Analysis*, pages n/a–n/a, December 2014.
- [23] Robin Lovelace, Mark Birkin, Philip Cross, and Martin Clarke. From Big Noise to Big Data: Toward the Verification of Large Data sets for Understanding Regional Retail Flows: From Big Noise to Big Data. *Geographical Analysis*, pages n/a–n/a, August 2015.
- [24] Alan T. Murray. Quantitative Geography. *Journal of Regional Science*, 50(1):143–163, February 2010.
- [25] Alasdair Rae and Alex Singleton. Putting big data in its place: a Regional Studies and Regional Science perspective. *Regional Studies, Regional Science*, 2(1):1–5, January 2015.
- [26] Sergio Rey. Rank-based Markov chains for regional income distribution dynamics. *Journal of Geographical Systems*, 16(2):115–137, April 2014.
- [27] Sergio J. Rey. Spatial empirics for economic growth and convergence. *Geographical Analysis*, 33(3):195–214, 2001.
